Learning more about REIKI AUSTRALIA

Thank you for your interest in Reiki Australia. We like to help connect people like you through Reiki.

Reiki Australia is a nationally constituted membership organisation. Our mission is to uphold professional Reiki treatment standards that preserve the traditional expression of Reiki as a spiritual and personal practice. Reiki Australia's primary commitment has always been to preserve Reiki as a spiritual practice and healing art and to nurture the Reiki community.

Reiki Australia provides reliable information about Reiki, maintains a directory of professional Reiki practitioners and teachers and supports the Reiki community in general.

If you are a Reiki treatment practitioner in public practice, Reiki Australia can provide opportunities for your professional development. Reiki Australia also will keep you informed about the governmental issues relevant to Reiki practitioners

Reiki Australia initiated the move towards national professional standards for Reiki treatment practitioners working in a variety of medical and other healthcare facilities in Australia. As a not-for-profit membership body, Reiki Australia is proactive in raising the profile of Reiki treatment as a complementary and supportive therapy. For full details go to: <http://www.reikiaustralia.com.au/>

If our mission, vision and values feel in harmony with your own, Reiki Australia might be the organisation you are looking for.

You can download a membership application form and other supporting documents at: <http://www.reikiaustralia.com.au/SupportingDocuments> or tick the box below for the complete kit.

Please provide us with your details if you would like to be connected with Reiki Australia
